ChimpKey

Owner: K. Price

PDF to XML or EDI Conversion Experts

ChimpKey is a solution that automates the tedious task of data entry for businesses. We specialize in converting PDF documents, such as purchase orders, invoices, and more, into various electronic formats including XML, X.12, CSV, UBL, EDIFACT, and more.

Our process is easy: simply email your PDF documents to our server, and we'll quickly return the files in a format compatible with your chosen order entry, accounting system, or custom-built program. The PDFs can be generated from any program, including Excel, Quickbooks, Simply Accounting, ACCPAC, Business Vision, SAP, Filemaker, or custom-built programs.
